

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Dr. Miles' Restorative Nervine and Nerve and Liver Pills are sold by all druggists under a positive guarantee, and a full bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

GENERAL WOOD FIRM

Will Not Furnish Rations to Cubans Until They Disarm.

THE LAST CONSIDERATION

Believed the Peace Commissioners Are Through With Cuba—Spanish and Cuban Bondholders Becoming Alarmed at the Unanimity With Which Spain, America and Cuba Repudiate the Debt.

Santiago de Cuba, Oct. 27.—Major Pettit, in command of the United States troops at Manzanillo and military governor of the city, telegraphed yesterday that the Cuban general, Rios, offers armed men to assist the Americans in preserving order, merely asking rations in return. General Wood sent the following reply:

"Certainly not. The only conditions on which rations are to be issued are the complete disarmament and disbandment of the troops."

Some of the Cubans here consider that the United States is treating its allies badly in not allowing the Cuban forces to remain armed. They contend that the Cuban soldiers, who have been fighting three years, who speak the language of the country, are better fitted for garrison duty than "untrained volunteers."

The Cuban general, Macia Rodriguez, virtually voices the sentiment of the Cuban army when he says: "We thank the United States for the assistance it has given us, but the time has now arrived when the Cuban should be placed in the highest offices and should prepare to take over the island on the departure of the Spanish."

Cuban Extremists here are jubilant at the reported attitude of the Cuban assembly at Santa Cruz Del Sur, where the delegates, while expressing their gratitude to the Americans, practically demand a distinctive Cuban government. The Cuban Moderates, on the other hand, regret this stand, thinking it best for the United States authorities to continue in charge of affairs for a year at least, so as to set things going and to prevent any complications with foreign governments.

Those who advocate annexation to the United States are extremely anxious to see the outcome. A prominent Cuban, now employed under our government, who is a Moderate and well able to judge of the feeling in Santiago, says those three parties are well defined and would poll about equally, but that in the event of the Extremists endeavoring to force an issue a majority of Moderates would join the Annexationists.

The foreign consuls are considering the advisability of appealing to the powers to prevent a too hasty recognition of the Cuban government.

The United States transport Roanoke arrived here yesterday from Manzanillo enroute for Guantanamo with Colonel Ray's immunes. Colonel Ray brought \$3,000, representing customs receipts at Manzanillo. The Santiago customs receipts for September were \$39,233.81. It is expected that the receipts for this month will exceed \$100,000.

RETICENT

Were the Peace Commissioners After Yesterday's Session—Philippine Question. Paris, Oct. 27.—The meeting of the peace commissioners lasted an hour and five minutes yesterday. Both the Spanish and the American commissioners were more reticent after this session than ever before.

The Americans fully appreciate their own serious responsibilities, but also the delicate position of their Spanish colleagues, to the burden of whose duties here is now added the critical political situation at Madrid, which may compel the president of the Spanish commission (who is also president of Spanish senate), Senor Montero Rios, to leave Paris.

As the peace negotiations are now nearing the discussion of the Philippine question, the Americans feel that no stage of the proceedings has so demanded their considerate judgment. It may not be stated with certainty that the Cuban question has received its last consideration by the Americans, nor have the Spaniards accepted as ultimate the United States' refusal to assume any portion of the Cuban debt.

It may, however, be affirmed that the Philippine question was not reached yesterday, but it may be discussed at today's session, which will be the first meeting during these negotiations of the joint commissions being held on succeeding days, which fact is in some degree significant.

Repudiating Cuban Debt.

The Paris correspondent of the London Times says: Yesterday the Spanish peace commissioners presented a new counter memorandum declaring their readiness, provisionally, to accept an article of a preliminary treaty stipulating that "Spain shall relinquish all rights to sovereignty in Cuba without formulating any other claim, and to leave in suspense all remaining questions, especially the Philippines."

The Americans asked until today to reply to this new memorandum. This is regarded as a favorable sign, being a slight relaxation of the rigidity the Americans have hitherto shown. They are perhaps aware that the Cuban and even the Spanish bondholders are becoming alarmed at the strange turn of the financial side of the discussion in which Spain, the United States and Cuba, with extraordinary unanimity and carelessness, all repudiate the Cuban debt.

Nobody will be able to force Spain to accept the debt, for, apart from bankruptcy, she could only meet the liabilities at the expense of her foreign bondholders, who by a strange anomaly, would thus have to pay for the independence of Cuba. It is not likely that the United States or any other power can or will force Spain to ruin herself by meeting the Cuban debt, and it will then either be a total loss for Europe or be paid by the Spanish bondholders.

Hacking COUGH

A hacking cough is a grave-yard cough; the sooner you get rid of it the better. Don't wait until it develops into consumption, but use the celebrated Dr. John W. Bull's Cough Syrup at once. It is a wonderful remedy for all throat and lung affections, and will cure a deep-seated cough or cold in a few days.

BLANCO'S ORDER.

No Further Discharge of Troops Desiring to Remain in Cuba.

Havana, Oct. 27.—General Blanco has issued the following general order: "Having received by cable on Oct. 17 a communication from the minister of war at Madrid announcing that the troops will be paid and discharged upon their arrival in Spain, I have resolved to suspend—until the minister of war replies to an inquiry I have since made—all further discharges, pursuant to my order of Oct. 4, of troops desiring to remain in the island."

It has been agreed by the Spanish authorities, in view of the protest of the United States evacuation commissioners, to leave the matter of the sale of alleged obsolete ordnance in abeyance until the question can be decided at the peace conference in Paris. Yesterday afternoon, however, two 6-inch guns from batteries at El Vedado, just back of the Hotel Trocha, were carried away before the very eyes of the American commissioners, presumably for shipment to Spain.

END APPROACHING.

In Peace Negotiations Regarding Cuba and Porto Rico.

Washington, Oct. 27.—There are indications that the peace commissioners in Paris are approaching the end of the consideration of the subject of Cuba and Porto Rico, and officials here would not be surprised if yesterday's session of the commission concluded those subjects, leaving the commission free to take up the most important matter in the protocol, namely, the disposition of the Philippines. The Spanish case has been presented with an ability and adroitness that commands the admiration of diplomats without regard to nationality, and even our own officials have been compelled to yield a tribute of respect to the arguments produced, but they have been of no avail in effecting any substantial change in the final attitude of the American commissioners, who are holding firmly to the line of procedure originally outlined.

GENERAL W. J. M'KEE

Ordered to March to Select a Camp Site for His Regiment.

Camp Poland, Knoxville, Tenn., Oct. 27.—General W. J. McKee, commanding this camp, and Colonel Cornelius Gardner of the Thirty-first Michigan, commanding the First brigade of the division stationed here, have been ordered to select camp sites for the regiments of their commands. They say the movement of the troops will begin about the last of next week.

George Kreider of the One Hundred and Fifty-eighth Indiana ambulance corps died in the division hospital yesterday. He was left here as a member of the division hospital corps when his regiment was taken to Indianapolis. His home was in that city.

NOTED SCOUT

Lieutenant L. S. Kelley Returns From His Alaskan Trip.

Washington, Oct. 27.—Major General Miles has received a telegram from Lieutenant L. S. Kelley at Van Conover barracks, Washington, saying that he had just returned from a trip through the unexplored region of Alaska as far as Tanana river, and is now ready for other service. This officer is a noted scout, having served gallantly with General Miles in most of his Indian campaigns. He entered the wilds of Alaska early in the spring and knew nothing of the war with Spain until his return to civilization. During his absence he was commissioned a captain in one of the immune regiments, but owing to the fact that he was beyond the reach of communication the commission was not issued. He will now be commissioned.

BABIES WEDDED.

Two Children Aged Thirteen and Twelve Joined in Matrimony.

King's Valley, Ky., Oct. 27.—A unique wedding, known as "the children's wedding," was solemnized here yesterday, when young Willie Spurgun, aged 13 years and 4 months, led to hymen's grave altar little Miss Minnie Doughty, aged but 12 years and 6 months. They were the youngest couple ever married here. Young Spurgun stated that he lived at Landing, a hamlet 40 miles from here, and that they had eloped—on foot.

ELECTRICIAN TESLA

His Invention For Transmitting Power Long Distances.

THROUGH EARTH AND AIR

He Expects to Transmit Electrical Power For Thousands of Miles—The Scheme Past the Laboratory Stage—His Niagara Falls Plant Supplying Power Twenty-Six Miles Away.

New York, Oct. 27.—Nikola Tesla, the electrician, describes in the Electrical Review a possibility in electric power transmission. His inventions for transmitting electricity at high pressure over long distances have been successfully applied at many natural sources of power. Probably the most important of these plants in the United States is at Niagara Falls, costing over \$6,000,000 to install, which supplies electricity to many large factories and supplies electric power for running the trolley lines of the city of Buffalo, 26 miles distant.

The announcement is now made that by employing apparatus which he had invented, capable of generating electrical pressures vastly in excess of any heretofore used, located at natural sources of power, the current can be conducted to a terminal maintained at an elevation where the rarified atmosphere is capable of conducting freely the particular current produced; then, at a distant point where the energy is to be used commercially, to maintain a second terminal at about the same elevation to attract and receive the current and to convey it to earth through special means for transforming and utilizing it.

With the article an illustration is presented showing streams of electricity issuing from a single terminal, giving an estimated electrical pressure of 2,500,000 volts. The Electrical Review comments on Mr. Tesla's novel and startling ideas as follows:

"Tesla now proposes to transmit, without the use of any wires, through the natural media—the earth and the air—great amounts of power to distances of thousands of miles. This will appear a dream—a tale from the Arabian Nights."

"But the extraordinary discoveries Tesla has made during a number of years of incessant labor, which are authoritatively described, make it evident that his work in this field has passed a stage of laboratory experiment and is ready for a practical test on an industrial scale. The success of his efforts means that power from such sources as Niagara will become available in any part of the world regardless of distance."

DISSENTING JUDGES

File Their Opinion in the Pullman Palace Car Case.

Springfield, Ill., Oct. 27.—Judges Craig, Wilkin and Cartwright in the supreme court have just filed their dissenting opinion in the case against the Pullman Palace Car company, in which the court decided Monday that the Pullman company's charter did not clothe it with power to purchase the real estate upon which the town of Pullman is built, construct and rent the buildings and own stock in the Pullman Iron company. The dissenting judges say that in the case of almost every corporation its implied powers are more numerous and of greater importance than those expressly granted in its charter, that corporation should have and exercise some degree of discretion in respect to the amount of real estate it should acquire and hold for the furtherance of its business.

Held In Philadelphia on Receipt of Dispatches From Sec'y Hay.

Philadelphia, Oct. 27.—Immediately after the reception to the president last night at the Union league a meeting of the chief executive and the cabinet officers who are in attendance with him at the peace jubilee was held at the Hotel Bellevue. Those present besides the president were Postmaster General Smith, Secretary of War Alger, Secretary of Agriculture Wilson and Solicitor General Richards, in place of Attorney General Griggs. The utmost secrecy attended the proceedings and it was impossible to learn for what purpose the meeting was called or what subjects were discussed.

The Brownstown Banner says "the people of the county know why their taxes are high." Certainly they do and will remove the cause by voting the Burrell crowd out of office November 8.

The ring organs have not a word to say against that "loyal" republican ticket or a man on it. And it wouldn't be very consistent for them to say anything against it since the ring helped to make it, and since it is a Burrell annex.

The taxpayers of Jackson county have learned long since the disadvantage of having the board of commissioners controlled in the interest of a few ringsters instead of the people. They have grown tired of the domination of John Burrell, and the methods he is using now to keep himself in office are frowned upon by thoughtful taxpayers throughout the county. His scheme with John W. Hamacher will deceive no one. The people of this, the second district, owe very little to ringmaster Burrell. Though this district has a population of 2,000 more than his and Gibson's district combined, and taxable property on the duplicate amounting to \$324,380 more than both of their districts, the combination has been against us whenever it seemed that the ring would be benefited. We are glad to know that the voters of Burrell's and Gibson's districts do not generally endorse their selfish course as was clearly shown by the very small vote the former got at the primary, and will be made more emphatic on November 8.

POLITICAL BREVITIES.

Our own F. W. Weener seconded the motion for D. A. Kochenour at Uniontown last night.

Hon. O. H. Montgomery returns home today from Harrison county where he has been assisting in the campaign.

Hon. Albert J. Beveridge spoke at Columbus last night to the largest political gathering there during the campaign.

Notice has been served on Flemmings neighborhood that W. T. Brannaman and C. W. Burkart would be out there to give them a dose of bitters compounded by the ring.

The Brownstown organ boasts of the fact that the people of that township are made to pay more than twice as much gravel road tax as most of the other township. It never occurred to us that high taxes represent a condition to be proud of, and we do not believe that the people generally of Brownstown township go around boasting of a higher tax rate than other townships.

Remarkable Rescue.

Miss Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at W. F. Peter's drug store. Large bottles 50 cents and \$1.00.

Meetings at the Hall.

There was a fine audience out at the Hall last night to hear Evangelist Patterson discourse on "Conversion." The discourse was plain, pointed and left no doubt in the minds of his hearers that he believes in a conversion which makes a man honest, honorable and upright in all his dealings with his fellowmen. He said that a conversion that would not make a man pay his just debts and amend all wrongs so far as possible was no good, and to baptize such as were not willing to make such amendments is simply a mockery. It is conceded that there never was such plain, pointed scriptural preaching done here. He certainly don't believe in exciting people to get them into the church. Hear him and be convinced. Tonight his theme will be "Climbing the Golden Stair." Next Sunday at 3 p. m. he will address the men only on "Man's Weakness and Strength."

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was \$100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

Ladies Home Journal.

The Thanksgiving Ladies' Home Journal marks the fifteenth anniversary of that widely read magazine, which now sells 850,000 copies each month, and its editor reviews its past under the unique heading, "Fifteen Years of Mistakes," revealing his plans for its improvement and for its greater usefulness in the future. A page of illustrations admirably typifies "Thanksgiving in the Country," and another of photographs is filled with suggestions for decorations, etc., for "Thanksgiving in the Church." "The Anecdotal Side of Mr. Moody" reveals the chief characteristics of the great Evangelist in a succession of interesting stories, and "My First Fight in the Jungle" is Henry M. Stanley's narrative of the first of his journeys into Africa. "How Richard Wagner Wrote His Operas" gives the clearest and most interesting view of the famous composer ever written.

The first chapters of Mary E. Wilkins' new serial are among the fiction features. Miss Wilkins reverses the novelist's usual order, and makes ludicrous the mistakes of city people in the country. The Curtis Publishing Company, Philadelphia. One dollar per year; ten cents per copy.

THEY TRIED TO KILL IT

DEMOCRATS OBSTRUCT THE PASSAGE OF A LABOR LAW.

More Benefits That Have Followed Republican Legislation In Behalf of Workers.

The "factory inspection and child labor" law, which though in force but a little more than a year, has been of great benefit to employers and employees alike, was passed by a Republican legislature, that of 1897. The Democrats tried to kill it by having the first section stricken out. Representative Sutton, acting for the Democratic minority, and in accordance with caucus action, moved that that be done. The motion was defeated, the Democrats almost to a man voting for it. They then tried by various amendments to render the law useless. In this they likewise failed. Factory Inspector McAbee says he is much gratified with the workings of the law. By it he states greater security is afforded to those working above second floors, because of the erection of fire escapes as required by the law. Additional protection has also been given by requiring elevators to be furnished with gates and doors.

The ventilation of factories and shops has been improved in many cases, and the dust so injurious to the health of wood and metal workers has been removed from many of the rooms where they are employed. One instance is reported where, a year ago, the room in which 25 men worked was full of dust from emery wheels; to-day, that room, through the enforcement of the law is free from that prolific cause of consumption.

It is also reported by the factory inspector that in one room of a wood-working establishment in which more than 20 men were employed, they appeared as indistinct, shadowy forms when looked at through the dust-prevailing one year ago; but, now, that room is clear and the atmosphere wholesome.

Under the operation of the law operatives are being educated in the use of the numerous devices made for their protection, such as sawguards, guards for jointers, planers and shapers, coverings for dogs and belts, and there is already a marked decrease in accidents.

At the same time there has been a marked improvement in sanitary conditions, especially where women are employed. Cases have been found where proprietors, who pride themselves on the completeness of their arrangements for the protection of their people, have entirely overlooked the necessities of their women employees. In this respect the change for the better has been very great, and Inspector McAbee is of the opinion that the improvement ought to be extended so that seats shall be provided for girls and women in stores or shops, to relieve them from constant standing, when not actively engaged at their work.

The law is also a valuable aid in preventing illiteracy, since it prevents the employment of children in factories during those years when they should be in school.

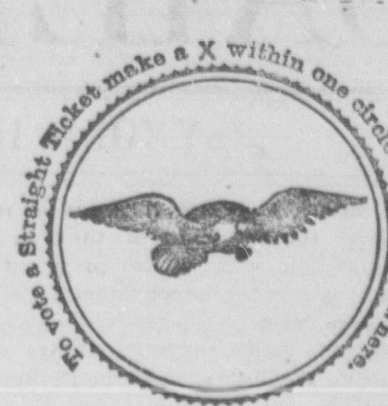

The law also affords a relief to the working class by providing them a means for the redress of their grievances, and a place where their complaints can be heard without prejudice or the danger of losing their employment. In such cases it is not difficult for the inspector to afford needed relief for such cases as are found worthy.

Proprietors are benefitted in many ways by the enforcement of the law. It increases the value of their plants by causing them to be better equipped. So much do they appreciate this that they frequently go beyond the orders of the inspector in enclosing and making safe their machinery. The law saves them from loss by accidents and damage suits. Proprietors learn from it that the cheapest insurance they can carry is the making of everything safe by using proper safety appliances. The inspector is glad to be able to say that no suggestion has yet been made by him to proprietors in regard to the protection of their machinery that has not been gladly received and complied with. It can be seen from this brief statement that this law, although in force but little more than a year, is one of the most useful in our statutes. Some of its provisions need to be changed or amended and others need to be added, which will materially increase its benefits to the public, and this will doubtless be done by the new legislature, which will be Republican.

HOW TO VOTE

Republican Ticket.

REP. For Secretary of State,
UNION BANNER HUNT.

REP. For Auditor of State,
W. H. HART.

REP. For Treasurer of State,
LEOPOLD LEVY.

You must get your ballots and the blue pencil of the polling clerks in the election room.

If you want to vote a STRAIGHT REPUBLICAN TICKET, make a cross, thus X, within the LARGE CIRCLE at the head of the ticket containing the EAGLE. If you DO NOT wish to vote a straight ticket, you MUST NOT make a cross in the large circle containing the device of any party, but you must make a cross, thus X, on the small square to the left of the name of each candidate for whom you desire to vote on whatever list of candidates it may be. IF THE LARGE CIRCLE AT THE HEAD OF THE TICKET is marked, and the ballot is marked at any other place, IT IS VOID AND CANNOT BE COUNTED, unless there be no candidate for some office in the list printed under such marked device, in which case you may indicate your choice for such office by making a cross, thus X, on the square to the left of the name of any candidate for such office on any other list. The cross must be placed within or on the circle or square, or the ballot is void and cannot be counted.

DO NOT MUTILATE YOUR BALLOT or mark it either by scratching a name off or writing one on, or in any other way EXCEPT BY MARKING IN THE CIRCLE OR ON THE SQUARES, as before mentioned. Otherwise the ballot will not be counted. After marking your ballots, and before leaving the booth, FOLD THEM SEPARATELY, so that the face of them cannot be seen, and so that the INITIAL LETTERS of the names of the polling clerks on the back thereof can be seen. Then hand your ballots to the inspector, the pencil to the polling clerk, and leave the room.

If you are physically unable to mark your ballots, or cannot read English, so inform the polling clerks, and tell them how you wish to vote, and they will mark your ballots for you. But neither you or the clerks must permit any other person to hear or see how your ballots are marked. It is a penal offense to declare that you cannot read English or cannot mark your ballots, if, in fact, you can.

If you should accidentally, or by mistake, deface, mutilate or spoil your ballots, return them to the poll clerks and get new ballots.

You must not accept a ballot from any person outside of the election room. Any ballot outside is fraudulent, and it is a penitentiary offense to have such a ballot in your possession, whether you attempt to vote it or not.

You must not attempt to hold any conversation in the election room except with members of the election board and the poll clerks.

You must not put any mark of any kind on your ballot except as before mentioned.

Use only the blue pencil handed to you by the polling clerk in marking your ballot. If you mark with any other pencil your ballot is void and will not be counted.

AT THE PARTING OF THE WAYS.

[Indianapolis News] The political speeches of this campaign are discussing questions of further-reaching scope than most of the domestic problems that heretofore have absorbed our attention. In all of them there is a dignity, a seriousness, a sense of large responsibility, of impending national greatness and duty, which give them an elevation and distinction new to our political oratory. It is recognized that we are standing at the parting of the ways, on the edge of a new era, with a larger sphere of duty and activity confronting us; that

Through the shadow of the globe we sweep into the younger day.

And there is no shrinking of doubt or hesitancy. There is a spirit of self-confidence, of manly power; a quiet determination to meet new duties and do them, to breast strange difficulties and overcome them.
